Gordons Port Moresby, N.C.D.
Papua New Guinea

Date: June 8, 2026

Dear Valued Customer,

We wish to provide an update on the current fuel subsidy arrangements and what this means for commercial fuel pricing.

The National Government has **reduced the current fuel subsidy** to support the **retail market only**. As a result, commercial fuel pricing will move to a world price basis effective from today, **8 June 2026**.

Your Islands Petroleum Depot Manager or Account Manager will provide your updated pricing schedule and can assist with any questions.

Sincerely,

Lloyd Trusty
Commercial Manager
Islands Petroleum Limited
